WALL PLATE SCREW KIT

- Convenient to carry
- Eliminates waste
- Saves time looking for lost screws

No. K-60 KIT

Includes 100 each: Bright Nickel, Brass Plated, Bronze Plated, Ivory (painted), Ivory Nylon, Brown Nylon screws. Screws are 3/8" long, 6-32 thread, oval head. Screws packed in clear plastic tubes. Six tubes in 7" x 3 1/2" x 1 1/4" plastic box. Shipping wt. 1 1/4 lbs.

SCREW REPLACEMENT TUBES

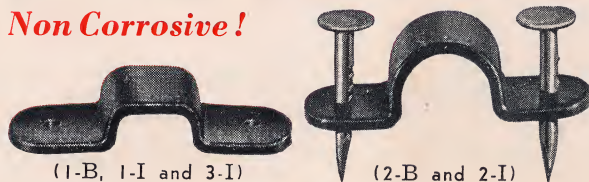

- No. 60-1—300 Ivory Nylon Screws *
- No. 60-2—300 Ivory (Painted) Screws *
- No. 60-3—300 Bright Nickel Screws *
- No. 60-4—300 Brass Plated Screws *
- No. 60-5—300 Brown Nylon Screws *
- No. 60-6—300 Bronze Plated Screws *

* Includes 3 tubes of 100 each.

PLASTIC STRAPS

Non Corrosive!

For UF cable, Romex, all types of telephone and radio wire and cable.

Made of Polyethylene, they are unaffected by moisture, salt spray or chemical fumes. Meet REA Farmstead Wiring Requirements for locations such as buildings housing livestock, etc. Use outdoors or indoors. Straps are 1/2" wide and 1/16" thick — packed 500 per carton.

* CAT. NO.	SIZE OF OPENING	LENGTH	WEIGHT (lbs./M)
1-B	1/4" x 7/16"	1 - 5/8"	2 1/2
1-I	1/4" x 7/16"	1 - 5/8"	2 1/2
2-B	1/2" round	1 - 11/16"	3
2-I	1/2" round	1 - 11/16"	3
3-I	1/4" x 3/4"	1 - 15/16"	3 1/2

* "B" is Black — "I" is Ivory.

LOOP TYPE PLASTIC CLAMPS

FOR PRODUCTION
CONSTRUCTION -
SERVICE - REPAIR

OPEN TO ANY
DIAMETER

Available in 3 materials

- ETHYL CELLULOSE
- POLYPROPYLENE
- NYLON

Many uses as a Clamp ... Strain Relief ... Clip Hanger ... Fastener ... Strap.

Plastic—the modern material again proves its superiority over metal in “Hi” Plastic Clamps. Millions in use!

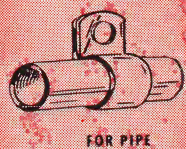

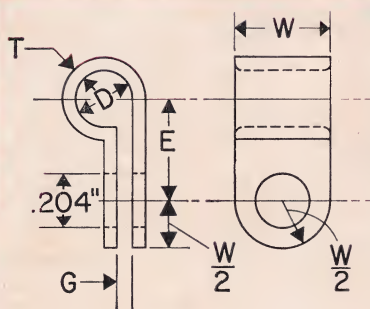

In production — construction — service and repair work, “Hi” Plastic Clamps offer these advantages:

SAFER Since plastic is a non-conductor, it insures against short circuits. The rounded edges prevent cutting of wire, hose or tube. In fact, worn insulation is actually protected by “Hi” Plastic Clamps.

LAST LONGER “Hi” Plastic Clamps are unaffected by atmospheric conditions. They are non-corrosive — non-sweating — non-rusting — will not support fungus growth. Recommended for both indoor and outdoor applications.

CUT COSTS “Hi” Plastic Clamps are easier to use — being pliable, they can be opened to any diameter and quickly slipped over cable or pipe. Eliminate costly metal clamps with insert because plastic material is a natural insulator and cushion.

ETHYL CELLULOSE Ethyl Cellulose Clamps are recommended for general use. This plastic is well known for its ability to withstand age, moisture, corrosion, shock and vibration. It is tough, light weight, durable and withstands temperatures from 66° below zero to + 180°.

FOR PIPE

FOR SINGLE WIRE

FOR GROUP WIRE

FOR CABLE
